# Disposal Bags for asbestos abatement

Grayling Industries' Durapax is a full line of industrial strength disposal bags for asbestos and other waste. Available in a variety of sizes, thickness, colors and printing. Bags are packaged on a roll and perforated for dispensing ease. In flat or gusset form, depending on bag size. Durapax disposal bags are extruded from resins that have exceptional strength, tear and puncture resistance for the most demanding waste disposal applications.

**durapax**  
disposal bags are available  
standard in clear, yellow and  
black, with and without  
printing, in sizes from 30"x40"  
to 60"x72".

Other sizes, gauges, printing  
and color combinations are  
available as special order,  
please contact your authorized  
Grayling distributor for more  
information.

## Available in these stock sizes-
